Subject: Microsoft Settlement

It's time to stop wasting taxpayer money and inhibiting successful entrepreneurs. If it wasn't for Microsoft, I and thousands of others would still be frightened of computers. When will the government and the courts recognize the huge benefits to worker productivity and consumer satisfaction that Microsoft has given to the world and to its stockholders. It has been one of the best, if not the best, innovator in technology. Settle these ridiculous lawsuits and allow business to continue to expand worker opportunities in this country and all over the world.
